SMART TEK LOG

Conserve energy for a brighter tomorrow

Smart Tek cares for Customers, Energy and Environment.

Our Mission :

To provide complete satisfaction to the customer through expert technical guidance, reliable product of highest quality backed by strong after sales service thus earning customers trust and confidence and become partner in their business.

Smart Tek Log is an organization committed to provide complete fluid handling and sealing solutions to the customers. Smart Tek Log deals in pumps for water and chemicals, valves, mechanicals seals, gland packing, all types of gaskets.

Smart Tek Log represents very reputed manufacturers like Investa Pumps, Ebara Pumps, PSG Dpver Pumps, Albin Hose Pumps, Gaskets, PTFE Sealant Tapes, Gland Packing, Ingersoll Rand Air Operated Double Diaphragm Pumps, Milton Rpy Dozing Pumps, ABO Valves, etc.

Smart Tek Log has a team of qualified and well trained persons to take care of marketing and service. Smart Tek Log is known in the industries as a company who provides right solutions with prompt service. Smart Tek Log helps the customers in proper selection of products for their requirement

OUR STRENGTHS :

- Highly reliable products from reputed manufacturers
- Qualified team to provide technical guidance and offers within record time
- Well trained team for quick and satisfactory service
- Customers trust earned through years of hard work

INVESTA PUMPS

Chemical Process and Thermic Fluid Pumps :

- Wide range of process pumps in all types of MOC.
- Pumps available in capacity up to 1200 m³/hour and head upto 150 mtrs
- Temperature 210°C to 260°C / Working pressure 2550 kPa
- Manufactured as per ANSI standard (ASA 150) and ISO 2858/5199
- Thermic Fluid pumps for high temperature up to 350°C. Head up to 175 mtrs and flow upto 275 m³/hour.
- Choice of MOC - Ductile iron, cast steel, SS
- Cooling fins eliminate external cooling systems
- Semi-open impellers with back vanes

EBARA PUMPS

EBARA Centrifugal Water Pumps:

- SS pumps manufactured with Japanese technology since 1912
- Perfect pumping solutions for industries, commercial and residential building services, drainage and wastage water handling and general water supply.
- Extremely wide range of pumps consisting of centrifugal pumps as per EN 733, In-line, multistage pumps, horizontal multistage close coupled pumps, end suction pumps, submersible sewage pumps, pressure boosting systems and many more
- Excellent service back up all over India

IR - ARO AIR OPERATED DOUBLE DIAPHRAGM PUMPS

- Perfect pumping solution for hazardous/ explosive environments
- Wide choice of material; Aluminium, Cast Iron, SS, Hastellpy, Polypropylene, PVDF, Acetal
- Sizes available from 15 mm to 80 mm
- Totally safe, no mechanical seal or gland packing
- Ideal for viscous or corrosive medium
- Pressure up to 8.3 bar

ALBIN HOSE PUMPS

Hpse pumps fpr very reactive fluids :

- Pumped fluid comes in contact with rubber hose only thus safe handling of many reactive fluids
- Wide choice of rubber (for hoses) to suit different types of liquids
- No mechanical seal or stuffing box reducing maintenance and down time
- Precise dozing of corrosive liquids
- Fully self priming up to 9 mtrs
- No damage due to dry running
- Gives 15 bar pressure at the outlet
- Low sound level – Less than 70 dB at 1 mtr.
- Close coupled with gear box protection

RASSTECH

Rasstech Mechanical Seals:

- Manufacturing quality seals since 1982
- Product range includes Universal cartridge seals, metal free cartridge seals, single spring seals, multi spring pusher seals, multi spring balanced seals, metal, PTFE and elastomeric bellow seals.
- Excellent sealing solutions for applications like pulp and paper, moderate slurry, crystalizing solutions, process pumps, vacuum distillation, salt solutions, processing equipment, petrochemicals, food and

NON-METALLIC CHEMICAL PUMPS

PVDF Chemical Process Pumps:

- Ability to Resist most chemicals and solvents
- Work with high thermal stability – continuous duty up to 120°C
- Flow up to 500 m³/hour and head up to 120 mtrs
- Suitable for liquids with viscosity 150 cP
- Working pressure 12 bar
- PVDF casing liner completely encapsulated in strong cast iron casing Armour

Polypropylene Chemical Process Pumps :

- Injection moulded pumps to ensure zero defect and long life
- Back pull-out pumps conforming to ISO 2858
- Flow up to 500 m³/hour and head up to 120 mtrs.
- Suitable for liquids with viscosity 150 cP
- Working pressure 12 bar

HITACHI

•The DSP "Pure Air" Standard

Certified ISO Class D for 100% oil-free operation it uses a patented mist remover and isolation valves to guarantee zero contamination in pharmaceutical, chemical, and beverage lines.

•Solid Stainless Steel Rotors

Unlike competitors who use Teflon or polymer coatings that eventually peel and rust, Hitachi uses solid stainless steel to ensure lifetime air purity and rotor durability.

•Lower the Maintenance Cost

With fewer moving parts and simplified single-stage designs. Hitachi is built for easier access. Overhaul costs are as low as 50% lower than other brands.

•High Heat Tolerance

Rated to run at 50°C as standard, these units thrive in hot warehouses. You won't deal with the annoying high-temp trips that plague other brands in the summer.

•Predictive Power Savings

Intelligent Pressure Control predicts demand drops before they happen to lower energy use. This saves an extra 3-5% on your power bill compared to reactive competitors.

OSP IN SERIES

DSP SERIES

INDUSTRIAL SEALING

Gland Packing and Gaskets :

- An ISO 9000-2015 company providing ideal solution for industrial sealing needs.
- Manufacturing range includes sealing products as well as customized solutions as per industry demands.
- Product range includes braided packing, graphite tapes and cut gaskets, ceramic products, PTFE enveloped gaskets and non-

GASKETS

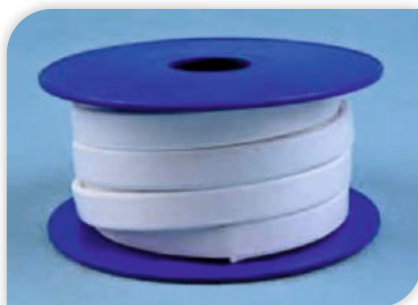

Metallic & Npn-Metallic Gaskets :

- Premium quality sealing products backed by German technology
- Reliable sealing solution for industries ranging from chemicals, petro chemicals, refineries, power plants, engineering companies and more.
- Sealing products for apparatus, vessels, piping, fittings and pumps.
- Product range includes metallic and nonmetallic gaskets, fabric gaskets, spiral wound gaskets, PTFE gaskets, etc.

PTFE Joint Sealant Tapes

PTFE Jpint Sealant Tapes :

- High end PTFE products
- Very short lead time of supply
- having strategic partnership in over 40 countries to facilitate distribution of products.
- Product range includes PTFE joint sealant tapes, gasket tapes and gasket sheets.

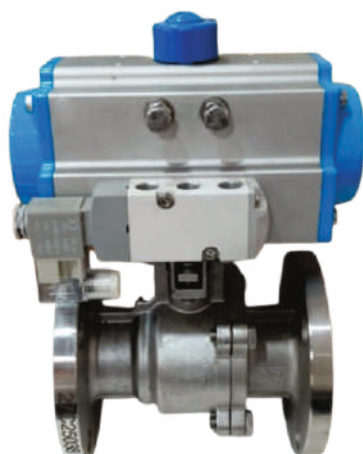

STARTFLO CONTROLS

- World class range of Butter fly valves, Ball valves, Gate valves, Globe valves, Check valves and Pneumatically operated actuators
- Designed for various sectors like oil and gas, power generation, mining, chemical process, marine, pharmaceuticals, food and beverage, water and others.

Manual valves & Automation Valves
